Glideshift Control Option.**

**The art of
energy efficiency**

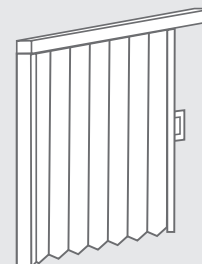

Introducing the Glideshift Control Option

Arena Honeycomb Shades are now available with Glideshift, a specially designed control option for use with sliding and patio doors as well as wide expanses.

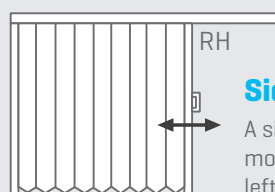

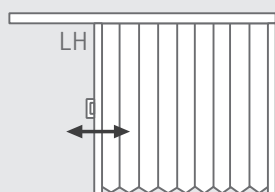

The newly designed system partners with a selection of our stylish and functional energy efficient fabrics with a variety of design options available. Like all Arena Honeycomb Shades, Glideshift provides superior insulating properties to control room temperature without compromising on style.

Operation is via a pull handle which enables Glideshift to move the shades open and closed.

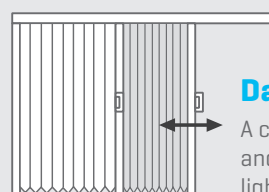

Design Options

Glideshift is available in 4 design options to suit all types of door openings or spaces.

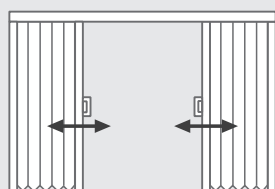

Side Stack

A single direction movement either left or right.

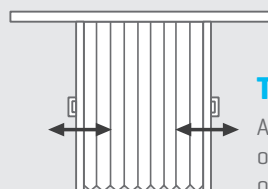

Day-Night

A combined blackout and sheer solution for light and privacy control.

Split Stack

A dual system with moving centre rails from centre to edge.

Travelling Centre Stack

An unrestricted movement left or right for complete or partial opening from either edge.

Optimal Size Limitations Chart

Fabric Option	Min Width	Max Width	Min Drop	Max Drop	Max Area
20mm Single Cell - Sheer	300mm	3050mm	600mm	3050mm	9.3 sq/m
20mm Single Cell - Translucent	300mm	4270mm	600mm	3050mm	13 sq/m
20mm Single Cell - Blockout	300mm	4270mm	600mm	3050mm	11 sq/m

Currently Glideshift is available in a selection of colours and with Aspen White hardware only. Launching September 2017 will be a variety of new colours and hardware colour options.
